

CRF-60

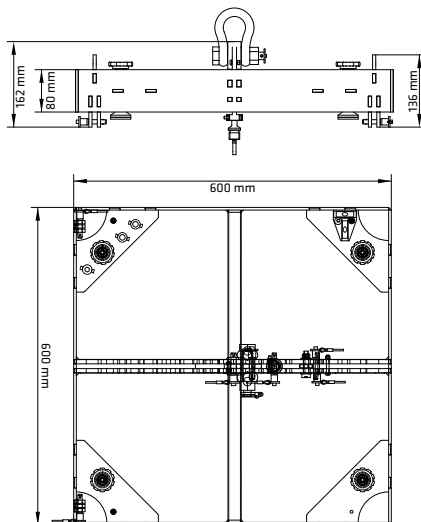

Rigging Frame

Part number: 1007677

The CRF-60 serves as a flying frame for all COSMO M/H units. Due to its compact dimensions and a load capacity of 350 kg, it is suitable for smaller COSMO setups. With the C-M20 adapter, it serves as a connection between C SUB and COSMO M/H units in ground-stack operation.

Characteristics

- Ideal for ground-stack applications in combination with the C SUB subwoofers
- MWL: 350 kg
- Dimensions: 600 x 137 x 600 mm
- Weight: 17.6 kg
- Items delivered:
 - C CRF-60 flying frame
 - C-PPA Pick Point Adapter
 - C-M20 Adapter
 - 4 adjustable feet
 - 3 shackles
