

CRF-80

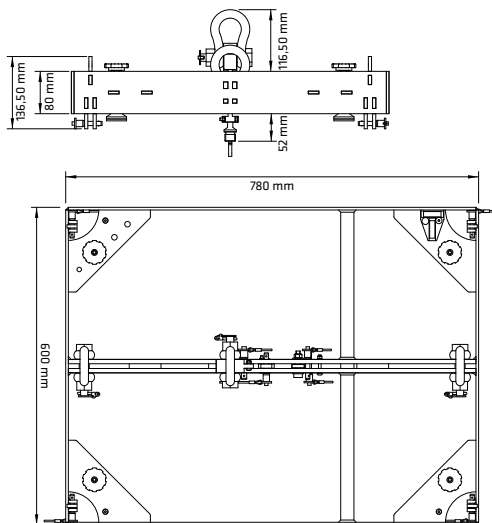

Rigging Frame

Part number: 1007678

The CRF-80 serves as a flying frame for all COSMO M/H units as well as for the flyable CF 118 subwoofer. The flying frame can be loaded with up to 700 kg and is used with large COSMO setups and when flying additional CF 118s. With the C-M20 adapter, the frame serves as a connection between C SUB and COSMO M/H units in ground-stack operation.
