

TB-28N

Part number: 1007780

The TB-28N is a tilt bracket that serves to mount speaker cabinets to trusses, ceilings, wall brackets, beams and on stands. Compatible with LINEAR 7 L7 110 XA and L7 112 XA speakers, it provides a flexible means of aligning these speakers vertically and horizontally.

The TB-28N has a WLL of 70 kg and a safety factor of 5. In regions subject to German DGUV-V 17 rules, the maximum load-bearing capacity is therefore 35 kg.

Features:

- Universal tilt bracket
- For mounting speakers to trusses, ceilings, wall brackets, beams and on stands
- Made of high-tensile steel
- Anti-corrosive coating
- Width is adjustable without tools
- Weight: 3.9 kg
